DETAILED ACTION

Applicants preliminary amendment cancelling claims 1-8, 14-23, 31-38 and 41-56, Paper No. 5, 2/24/2000, is acknowledged. Claims 9-13, 24-30, 39 and 40 are present for examination. It is noted that this is the second request for restriction. Any inconvenience to the applicant is regretted.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 9-13, 29, 30, 39, 40, drawn to a DNA which encodes a modified DNA polymerase, a vector comprising said DNA and a host cell comprising said DNA, classified in class 435, subclass 252.3
- II. Claims 24-27 and 28, drawn to a method of producing a DNA polymerase, classified in class 435, subclass 440.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the products of Group II can be made synthetically without modifying a native nucleic acid or polymerase.

Because these inventions are distinct for the reasons given above and the search required for Group I-IV are not coextensive, restriction for examination purposes as indicated is proper. *"For purposes of the initial requirement, a serious burden on the examiner may be prima facie shown if the examiner shows by appropriate explanation either separate classification, separate status in the art, or a different field of search as defined in MPEP 808.02." (see MPEP 803).*

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard G Hutson whose telephone number is (703) 308-0066. The examiner can normally be reached on 7:30 am to 4:00 pm, M-F.
